REGED BY REBELS

Fall Into Their Hands.

REGED BY SMALL FORCE

of This Force, It Is Said, Is
ly to Desert at a Moment's No-
—Davilla Making a Plucky but
arently a Losing Fight.

Orleans, La., July 16.—The
ne says:

ounded by nearly a thousand
s, and with only five hundred
s to guard her, half of whom
eady to desert at a moment's
s, Ceiba, one of the principal
on the eastern shore of Spanish
aras, is expected to fall into the
of revolutionists at any time.
was the story brought to New
Tuesday afternoon by Elias
ri, a merchant of Ceiba, who
the sole passenger aboard the
ship Joseph Vaccaro.

resident Davilla is making a
y but what seems to be a losing
y said Mr. Maestri. "Last
uesday night revolutionary sym-
ymers fired a store at Ceiba, in the
of bringing the soldiers away
the garrison to extinguish the
s. In the meantime the rebels
e outskirts of town were to cap-
the fort. But the scheme was
ure, for the fire was discovered
ne and put out by citizens without
aid from the troops.

he incident only shows that an
e back in the hills waiting for
avorable chance to attack Ceiba.
a what I can hear, a good many
e soldiers cannot be relied on,
are liable to turn against the gov-
ernment."

though Mr. Maestri seemed not
now anything regarding this
e of the matter, it was learned
e other sources that the question
smuggling has had a good deal to
with the discontent of the people
and about Ceiba with the Davilla
nistration. Former President
illa to some extent tolerated smug-
gling operations in his country. There
a little cove near Ceiba where the
occupation of the people was to
ad goods that had been brought in
out payment of duty. Davilla
a stop to this practice.

olt May Sweep Central America.

Guatemala City, Guatemala, July
16.—While few details have been re-
vealed here of the progress of the revo-
lution in Honduras, it is officially
eclared that the movement will tend
to paralyze the work of the Central
American court of justice recently in-
stated in Costa Rica. It is also
officially announced that Guatemala
strictly comply with the obliga-
tions contracted at the peace confer-
ence in Washington last year. The
general opinion among the diplomats
is that the disturbance in Hon-
duras is the prelude to a movement
which is likely to sweep throughout
Central America.

Bailey Joins Honduran Navy.

New York, July 16.—Francis G.
Bailey, president of the bankrupt Ex-
port Shipping company, and a fugitive
from justice upon a charge of grand
larceny, has become an officer in the
navy of Honduras, according to state-
ments made by friends of his here.
Bailey's recent escape from a United
States detective, it is stated, was
thought about by a naval officer of
Honduras, to whom \$4,500 had been
paid by the prisoner. Bailey was a
rior before he entered business, and
his friends here said that Bailey, un-
der another name, is now safe in the
Honduran navy.

Convention of the Zionists.

Atlantic City, N. J., July 16.—The
recent convention of the American
Federation of Zionists in this city has
been voted by the 300 delegates at-
tending as one of the most successful
ever held by the federation. A. P.
Remondson, field secretary, explained
the need of funds for sending out
propagandists and \$1,000 was given by
the convention and as much more has
been pledged.

TENNESSEE DEMOCRATS.

Will of the People As Expressed in
Primary Ratified.

Nashville, Tenn., July 16.—At a
convention remarkable for its size and
the demonstration, the democracy of
Tennessee has formally ratified the
will of the party as expressed in the
primary on June 27 last. Following is
the ticket, the nominees in each in-
stance being incumbents:

Governor, Malcolm R. Patterson, of
Shelby county; supreme court, Ben-
jamin D. Bell, of Sumner county; court
of civil appeals, A. N. Lamb, of Hen-
ry county; railroad commissioner,
Frank Avent, of Rutherford county.

Governor Patterson was given a
magnificent ovation when he appeared
on the floor to thank the convention
for renominating him.

The platform, as adopted, reaffirms
the time-honored principles of the party
as handed down by its founder,
Thomas Jefferson, and as exemplified
by its present great leader and expo-
nent, Hon. W. J. Bryan. It indorses
the platform of the national democrat-
ic convention, made at Denver, and
pledges its undivided and loyal sup-
port to the nominees of that conven-
tion.

Local option and the county unit
are favored.

A constitutional amendment is fa-
vored making the term of the govern-
or four years instead of two, and that
he be ineligible to succeed himself.

An amendment to the constitution is
also favored by which the people may
amend it without unnecessary and un-
reasonable delay, and another amend-
ment is proposed in which all the elec-
tions for state officers shall be held
on the same day throughout the state.

THE MAJORITY VOTE.

Rather Peculiar Situation Under the
Georgia Law.

Atlanta, July 16.—With three can-
didates for president to be voted on in
November by the people of Georgia,
the interesting possibility of the fail-
ure of any of them to secure a major-
ity of the entire vote cast, which would
necessitate the calling of an extra
session of the legislature to name
Georgia's electoral ticket, is just now
being discussed.

Chairman Hewlett A. Hall, of the
democratic state executive committee,
has called the committee in session
at the Kimball house in this city on
July 25, at 10 o'clock, a. m., and the
democratic electors to meet with the
committee for the purpose of holding a
conference upon this situation.

There will, of course, be other mat-
ters for the consideration of the com-
mittee which will formally organize,
and for the electors whose eligibility
will be canvassed, and the places of
those not entitled to hold them, if
any, filled by appointment by the state
chairman.

In every state in the union with the
exception of Georgia, those presidential
electors receiving the largest number
of votes, or a plurality over the next
highest ticket, are declared elected.

In Georgia, however, the law re-
quires that presidential electors can-
not be chosen unless they receive a
majority of the vote cast in the state.

Of course, it is the generally ac-
cepted belief that Mr. Bryan will get
a majority of the vote in Georgia, and
there will be little doubt that he will.

Mad Cat Bites Mayor.

Lavonia, Ga., July 16.—Hon. W.
B. Richardson, mayor of Lavonia,
was bitten by a cat on the calf of his
leg. It is thought the cat was mad.
Mr. Richardson had just eaten break-
fast and was on his way to his horse
lot, and the first thing he saw of the
cat it had him by the leg. He had
to pull it loose from his leg. The cat
was shot three times before it died.
Mr. Richardson left for the Atlanta
Pasteur Institute for treatment.

Negro Lynched in Tennessee.

Nashville, Tenn., July 16.—A Mid-
dleton, Tenn., dispatch says that Hugh
Jones, a negro, was strung up to a
sapling limb near that place by a
mob of a hundred men at daylight on
Tuesday morning. Jones had attempt-
ed to assault Miss Ora Yopp, aged
seventeen. He was captured at La-
Grange, and was being brought to
Middletown by special deputies when
the mob appeared and took charge of
the prisoner.

PROHIS AT COLUMBUS

Convention at Sea as to the Stand-
ard Bearer.

PREFERS SEABORN WRIGHT

It Looks as If the First Place on the
Ticket Will Be Filled as Result of
Free Fight Among the Delegates to
the Convention.

Columbus, O., July 16.—There was
every probability before the prohibi-
tion national committee met Wednes-
day that the first place on the ticket
would be filled as the result of a
free fight among the delegates.

In spite of the fact that numerous
names have been mentioned, it has
been the understanding among the
greater portion of the delegates that
the presidential nomination would be
given to Judge Seaborn Wright, of
Georgia, if he would take the place.

Up to Wednesday morning, how-
ever, no intimation had been received
from Judge Wright to the effect that
he intended to accept the honor. An
hour before the convention opened,
Charles R. Jones, of Illinois, chair-
man of the national committee, de-
clared that if word was not soon re-
ceived from Mr. Wright, announcing
that he intended to take the place,
the matter would be left entirely open.

Under these conditions Charles
Scanlon, of Pittsburg; Joseph P. Tra-
cy, of Detroit; Fred W. Wheeler, of
Los Angeles; Daniel R. Sheen, of Pe-
bria, Ill.; Alfred L. Mannerie, of New
York, and Joshua R. Levering, of
Baltimore, were most prominently
mentioned. The latter gentleman,
who led the party in 1896, is strongly
favored by many of the delegates.

The convention was called to or-
der at 10 o'clock in Memorial hall
by Chairman Jones. The invocation
was offered by Rev. H. A. Thompson,
of Dayton, O., and after the formal
reading of the call for the convention
the name of Robert H. Patten, of
Springfield, Ill., was announced as
temporary chairman.

Following the address of Mr. Patten
the roll of the states called for the
announcement of the various commit-
tees.

It was expected that the commit-
tee on credentials would be ready to
report before the morning session of
the convention adjourned, there being
no contests filed.

It was expected that the entire work
of the convention, with the exception
of the nomination of a presidential
ticket, would be completed by Thurs-
day morning.

Delegates were slow in taking their
places and the galleries were well
filled long before the official represen-
tatives of the various states had as-
sembled. As the delegations enter-
ed the hall they cheered for their
choice for the presidency and some
had topical songs to awaken enthusi-
asm.

Sang "Old Oaken Bucket."
The first demonstration in the hall
was aroused by the arrival of the Mas-
sachusetts delegation carrying a stand
and surmounted by a water wagon
and bearing a water bucket as a pen-
dant. The delegation sang "The Old
Oaken Bucket."

The Indiana delegation executed a
deafening yell proclaiming themselves
as Hoosiers and against license high
and license low, and equally opposed
to local option, but declaring them-
selves to be squarely for national pro-
hibition.

National Chairman Jones asked for
silence at 10:35 o'clock and called the
tenth annual convention to order. He
said that since the prohibition party
was organized thirty-six years ago the
movement has spread until now four
teen million people live in territory
which has outlawed the saloon. He
predicted an extensive increase in the
prohibition vote this year and said
the campaign to be conducted will ring
through the country and "reverberate
like a battering ram."

THREE HURT IN FIRE.

Fashionable Apartment House Was
Destroyed in Memphis.

Memphis, Tenn., July 16.—In a fire
here Tuesday which destroyed the
fashionable Jefferson flats, Mrs. F. B.
James, formerly of Chicago, jumped
from a second story window and is in a
critical condition at the Presbyterian
hospital. Mrs. J. J. Stein was carried
from the building by firemen. Mrs.
Elizabeth McDonald, living on the
fourth floor, did not awaken until she
was hemmed in on all sides by flames.
Her cries attracted the firemen, who
carried her through a window and
down an extension ladder a few min-
utes before the roof fell in over her
room.

A number of other occupants of the
building were rescued by firemen,
most of them clad only in their night
apparel.

Diamonds valued at \$10,000 were
recovered from Mrs. James' room dur-
ing the progress of the fire by Police-
man Crosby and Smith. Loss \$25,000;
covered by insurance.

"UNCLE REMUS" MEMORIAL.

"Sign of the Wren's Nest" To Be Pur-
chased for this Purpose.

Atlanta, July 16.—The "Snap Bean
Farm" where Uncle Remus communed
with his friends, Br'er Fox and Br'er
Rabbit; where he sat in his armchair
and heard his mockingbird sing, and
where he put their words in writing
so that all the world might know
what he heard, will be the memorial
to Joel Chandler Harris, if the plans
underway are carried out.

According to the plans the "Sign of
the Wren's Nest," the late home of
Uncle Remus, on Gordon street, in
West End, with the adjoining
grounds, will be bought from the es-
tate at a price to be fixed by a board
of appraisers to be appointed by a
committee. The children of Uncle Re-
mus have made a verbal agreement to
this, and it is understood that this
form of memorial meets with their en-
tire approval.

He Killed Wife and Self.

McHenry, Tex., July 16.—Bob
Wright, aged thirty-two years, killed
his wife, aged twenty-five, and then
committed suicide at their home four
miles west of town by slashing their
throats with a razor. When discovered
his wife was lying face downward on
the floor with her windpipe severed
and Wright, with several gashes in
his throat, was wandering about the
house begging for some one to kill
him. The couple are survived by a
three-year-old child, who was found
sitting on the bed near where its dead
mother was lying.

Reunion "Bloody Thirtieth."

Atlanta, July 16.—The reunion of
the Thirtieth Georgia regiment, known
as the "Bloody Thirtieth," will be held
at Forest park, Clayton county, on
the Central railroad, on the last Fri-
day in July. All members of the leg-
islature are earnestly requested to
be present on that day, as it won't
be but a few years when there will
be few veterans to meet. Other vet-
erans are also invited. Special speak-
ers will be invited. General Evans,
General West, General Gid Morris and
others will be there.

Mystified Over Explosion.

Leavenworth, Kansas, July 15.—Au-
thorities are mystified over an explo-
sion that occurred late Saturday
which some persons ascribe to the
throwing of a bomb at Major R. W.
McLaughry, warden of the federal
prison at Fort Leavenworth. No one
was hurt and there is no direct clue
to establish the theory of bomb throw-
ing. While Major McLaughry was
passing along Cherokee street in a
vehicle in which were seated beside
himself, W. L. McLaughry, his son,
and the driver, there was a terrific
explosion opposite the right front
wheel of the wagon. The warden,
his son and the driver were stunned
and one of the miles drawing the ve-
hicle was cut by flying pieces of metal.

Protest Against Lusk.

Mobile, Ala., July 16.—Numerous
protests have gone to Governor Co-
mer, of Alabama, asking him not to
appoint Senator John A. Lusk as rail-
road commissioner on the grounds that
he is sympathetic to the railroad in-
terests of the entire state.

INMATES IN A PANIC

Bomb Exploded at Stylish Apart-
ment House.

THE AFFAIR IS A MYSTERY

If It Is a Black Hand Outrage, Police
Say It Is the First Yet Directed
Against the Wealthier Class of New
York Residents.

New York, July 16.—A dynamite
bomb, exploding with terrific force
early Wednesday in the arway of a
fashionable apartment house in West
One Hundred and Fortieth street,
hurled scores of the occupants from
their beds, shattered many windows
and threw the tenants into a panic.

A huge hole was torn in the cement
flooring of the court where the bomb
went off and considerable other dam-
age was done to the building.

There were forty-two families living
in the apartment house, but as far
as the police could learn none of them
had received threatening letters, and
the reason for the bomb throwing is
much of a mystery.

The only clue that the police have
is one furnished by a bell-boy of a
nearby apartment house. He said
that before the explosion he was sit-
ting on the front steps and saw three
men pass. They were carrying a
small bundle and walked in the direc-
tion of Watt's court, where the bomb
later exploded. The boy said he did
not see the men enter the building,
as a passing milk wagon shut off his
view, but a moment later he heard
the crash of the explosion, the force
of which threw him from his chair.
An instant later three men ran swift-
ly down the street and disappeared.

The block in which the explosion
occurred is occupied by a number of
high-class apartment houses.

Detectives working on the case say
they have no clue to the perpetrators
and that if it proves to be an attack
by members of the Black Hand, it
will be the first of the kind in New
York directed toward the wealthier
class of residents.

TABRIZ SITUATION GRAVE.

No Direct Danger to Europeans Yet,
However.

London, July 16.—A correspondent
of the Times at Tabriz under Tues-
day's date, says:

"Arrived safely after some almost
desperate vicissitudes and find the sit-
uation here one of great gravity for
the inhabitants, but there is no di-
rect danger to Europeans. On my
way to this city I myself was seized
and carried four miles by Rachid
Khan's horsemen, but was eventually
released and conducted to Tabriz.

"The shah has placed Rachid Khan
in command of the troops with excep-
tional powers to disarm the people
and restore order. The latter has
1,500 men under him, while opposed
to his forces are 400 revolutionary de-
voted, backed by such of the popu-
lation as were compromised in the re-
cent constitutional movement.

"Rachid Khan has closed all the ex-
its of the town and attempted to re-
duce the number of revolutionists.
Desultory street firing occurred
throughout the day and still contin-
ues, but the issues of this guerilla
fighting are still indefinite."

One Killed; Seven Injured.

St. Louis, July 16.—In a head-on
collision Tuesday night on the St.
Louis, Iron Mountain and Southern
railway, the engineer and fireman on
the St. Louis-Memphis special were
killed and seven persons were injured.
The train departed from union station
at 7:45 o'clock and crashed into a
freight train near the intersection of
Tower Grove and Oak Hill avenue. The
collision is said to have been caused
by a misunderstanding of orders.

Big Fire at Merrill, Miss.

Merrill, Miss., July 16.—Four
buildings, including the Commercial
hotel and new postoffice building re-
cently erected, were destroyed by fire
Monday night. The loss is estimat-
ed at about \$50,000, with little insur-
ance. The fire originated from a de-
fective flue in the hotel.

THE OCILLA BUNCH EASILY DEFEATED

The Fast Oak Halls Were Too Much For
the Tired Georgia Boys.

BEAUTIFUL WORK BY OAK HALLS

An Errorless Game Played by Oak
Halls, While the Visitors Were
Chalked Up With Three—Will Be
Looking After Us Today.

Only a small crowd of local fans
braved the threatening weather to at-
tend the game at the ball park yester-
day afternoon between the Ocilla
team and the fast bunch picked up
here by Manager Davis which is ad-
mirably defending the title of the
famous old Oak Halls.

The Georgia crowd are a set of
gentlemen and the long jump that
they were compelled to take in order
to reach here in time had much to do
with their playing yesterday, but to-
day's game promises to be one of in-
terest throughout, and the public can
attend with the assurance that they
will see a good game today—one that
will be full of ginger from start to
finish.

The management desires to an-
nounce that the game will be called at
4 o'clock, rain or shine, and you all
want to get the habit of attending
and being on time. No aggregation
can hold up as we have started with-
out the local fans taking interest, and
it behooves us all to help them by our
presence and lend them encourage-
ment in every way possible.

The game was an errorless one yester-
day for the Oak Halls, while the
visitors made three costly bobbles.

Following is the game by innings:

First Inning.

Graham got first via Big Four and
went to second on Sheat's hit to
center. Hutchinson ballooned to cen-
ter, scoring Graham, and Sheats tak-
ing third. Hutch, scampered to sec-
ond on the throw-in to the plate.
Taylor grounded to short, bringing
Sheats over the plate, and Hutchin-
son was tagged out when he attempt-
ed to reach home. Kennard and Mar-
ten flew out to center. Two runs.

Simmons hit to pitcher, Mitchell
flew out to second, Bowen ballooned
to right field. No runs.

Second Inning.

Clark fanned, Watson skied out to
second; Marten struck out. No runs.

Snow, the ice man, flew out to left.
Henderson grounded to first, Irvine,
an old-timer, grounded to short, out
at first—and still the goose-eggs come.

Third Inning.

As usual, Graham found the pill, but
skied out to right. Sheats hit a hot
grounder to third, and was safe on
first. A moment later he swiped sec-
ond. Hutchinson grounded to short,
and Sheats was nabbed at third. Tay-

runs.

Howell went out to first, Sebley
grounded to short and was thrown out
at first. Rogers got a free pass to
first but was caught trying to get
down to second, leaving Simmons
with the stick in his hand. Still the
same old story—nothing doing for the
visitors.

Fourth Inning.

Kennard fanned the air, Denton
safe on an infield grounder and stole
second. Clark sacrificed and Denton
was caught at third. Watson could
not locate the pill and whiffed. No
runs.

Simmons grounded to short and was
caught at first, Mitchell out, short to
first, while Bowen, the big one, rolled
another one down to short and was
out at first. No runs.

Fifth Inning.

Marten fanned, Graham skied to
left; Sheats bunted to third, advanc-
ing Graham, and "Old Hutch" sent
one in the air to center, scoring Gra-
ham, and himself reaching second;
Taylor got a try at it three times and
lost; Kennard found the pill for a
safe one in left, scoring Sheats and
Hutchinson. Denton grounded out.
Three runs.

Snow grounded to short, out on
first; Henderson hit to pitcher and
was thrown out; Irvine followed suit
with a faithful attempt to swat a
good one.

Sixth Inning.

Clark sent a Texas Leaguer to cen-
ter, which was muffed, Watson bunt-
ed to pitcher and was out. Marten
landed a bingle in center, sending
Clark across the rubber. Graham
flew out. One run.

It was easy work for Howell to
roll one to the pitcher and was out on
first, while Sebley and Rogers thought
it was not just-right to do anything
but fan—they did it. No runs.

Seventh Inning.

Sheats failed to locate the sphere
out of three swings at it; Hutchinson
hit to pitcher and was out at first;
Taylor fowled out. No runs.

Simmons sent a nice bingle to left
for two bags; Bowen out, short to
first; Cold Man (Snow) swatted the
pill to center for a single, sending

A FACT PROVEN.

Should Convince Even the Most Skep-
tical of Its Truth.

If there is the slightest doubt in the
minds of any that Dandruff germs do not
exist, their belief is compelled by the
fact that a rabbit inoculated with the
germs became bald in six weeks' time.
It must be apparent to any person
therefore that the only prevention of
baldness is the destruction of the germ—
which act is successfully accomplished
in one hundred per cent. of cases by
the application of Newbro's Herpicide.
Dandruff is caused by the same germ
which causes baldness and can be pre-
vented with the same remedy—Newbro's
Herpicide.

Eighth Inning.

Kennard got it in the neck on a
slow one to third; Denton followed
the same route, while Clark punched.
No runs.

Irvine sent a swift grounder to
Kennard, who whipped it across to
Hutch. In plenty time; Howell smash-
ed a beauty to left. Sebley sacrificed,
Howell going to second. Rogers
whiffer the air. No runs.

The Summary.

Hits off Watson, 3; off Rogers, 6.
Base on balls, off Watson, 1; off Rog-
ers, 1. Struck out, by Watson, 5; by
Rogers, 2. Sacrifice hits—Clark,
Sheats, Watson. Two-base hits—Sim-
mons. Stolen bases—Denton, Clark.
Umpire—Graham. Time of game—
1:15.

The line-up for Ocilla today will be
the same as yesterday, with Goodwin
doing the heaving.

For the Oak Halls: Hutchinson, 1b;
Harris, 2b; Graham, ss; Kennard, 3b;
Denton, 1f; Watson, cf; Taylor, rf;
Sheats, p; Marten, c.

The Ocilla bunch will be looking
after us today, as they will have on
the firing line the famous twirler,
Goodwin. A new man will probably
be seen in the Oak Hall's line-up, who
they say is a "hummer."

Game called promptly at 4 o'clock,
and let everyone attend, rain or shine.

Back Yards.

Whitewash is a very good thing
but not when used to hide a tarnished
reputation or to conceal filth. If you
want to form a correct estimate of
your neighbor's housekeeping qual-
ities, don't go into her parlor, but take
a peep into her kitchen and back
yard. These tell the whole story.
Most of the cases for the doctor, too,
originate in one or the other of these.
"Cleanliness," said the great Wesley,
"is next to Godliness," but close as
it lies to Godliness it lies closer still
to health.

The installation of our sewerage
system has made it possible for our
people to have, with little labor and
expense, clear, wholesome and com-
fortable homes, and motives both of
personal and public interest should
impel them to take advantage of
these opportunities, necessities,
rather, we should say, for in the light
that modern science has thrown upon
the nature and origin of disease, neg-
lect of proper sanitation is a sin
against the home and a crime against
the community. Clean up your prem-
ises, banish malaria and mosquitoes,
carry the war against flies into the
stable yard, and connect up your
house with the sewerage system—but
be sure that your plumbing is properly
done. Better no plumbing than bad
plumbing. There are only two kinds
of plumbing, the good and the bad;
there is no middle kind. We do the
good kind at a less price than you
have to pay for bad sometimes.

Tennessee Republicans Meet.

Nashville, Tenn., July 16.—The re-
publican state committee met here and
issued a call for the republican state
convention to meet in the auditorium
in Chattanooga on August 18. Owing
to a split in the republican ranks,
the indications are that there will be
two conventions.

The way of the transgressor is Lard

The wise housewife specifies *Cottolene*
every time in place of lard. Anyone with
a particle of respect for his stomach would
prefer a pure vegetable product to one made
from the fat of the hog.

Cottolene is always pure; lard isn't.

Cottolene will make more palatable food
than lard, and food that any stomach can
digest with ease. Lard is a friend of
indigestion.

Cottolene is put up in
odor-proof, sealed tin pails;
most lard comes in bulk,
and will absorb any old
odor which is near it.

You can prove every word
we say by buying and trying
a pail of *Cottolene*. All good
grocers sell it; all the great
cooking authorities of America

Are YOU Being "Hunted?"

One of today's want ads. may be hunting you—ransack-
ing the city for you. It may have a message for you of urgent
personal importance—one that, when you get it, and heed
it, may change the immediate currents of your activities, of
your interests—may even place around and about you new
environments, new associates; may give you an entirely new
start in a business way.

Isn't it worth while to try to find out whether this may
not be true—today, tomorrow, or very soon?

G. C. PEDRICK S BADLY INJURED

Occurred in Columbia, When a
Freight Train Smashed Car.

COMPLETELY DEMOLISHED

Only Few Passengers
Escaped In-
cident. Except Mrs. Pedrick, Who Was
Saved by Jumping.

A pleasant outing for several
while on her return home
city, Mrs. C. C. Pedrick was
injured in a wreck at Colum-
bia, Wednesday.

In company with her two chil-
dren, Winfred and Douglass, were
on the city from one depot to
another when the accident occurred,
came near resulting seriously.
Fortunately the approach of danger
was discovered just in time to save
occupants of the car. A freight
train heavily loaded was coming at a
rate of speed and crashed into
the car, completely demolishing it.

Pedrick, in jumping, sustained
a bruise on the head and also
a wound on the hip, which
rendered her unconscious for more
than two hours.

Medical aid was quickly summoned
and she was placed on board a sleeper
which was removed until her arrival
in Gainesville Wednesday, being nursed
on the trip by Mrs. A. G. Col-

man. The children were unhurt, as well
as the remaining occupants of the
car, due to the way in which
they jumped from the moving car,
which was running at a fair rate of

Pedrick arrived home Thurs-
day morning the Seaboard, and although
painfully injured, she is resting
and her friends trust that she
will soon entirely recover.

Van Allen Leases the White
House from Him.

The Sun: As there seems to be
an impression among some of the peo-
ple of Gainesville that the hotel busi-
ness of the White House belongs to
Major Thomas, and that I am acting
as a manager, and as your article of
yesterday might be understood that
I wish to correct any such im-
pression. Major Thomas leases his
property to me the same as Mr.
James Van Allen leases his hotel property. I
pay him so much per year, and have
the use of the same. He has not one
share in the business, nor does he
get the profits. He simply gets his
rent the same as he does from his
city property.

These are the facts and any state-
ment to the contrary are not correct.
I also wish to add that the success

TWO REMARKABLE CURES OF ECZEMA

Over Twenty-three Years Ago Baby
had Severe Attack—Years Later
Grandfather Suffered Torments
with the Disease—Virulent Sores
Developed from Knees to Toes.

BOTH OWE COMPLETE RECOVERY TO CUTICURA

"In 1884 my grandson, a babe, had
an attack of eczema, and after trying
the doctors to the
extent of heavy
bills and an in-
crease of the dis-
ease and suffering,
I recommended Cu-
ticura and in a few
weeks the child was
well. He is to-day
a strong man and
absolutely free
from the disease.
A few years ago I
contracted eczema,
and became an in-
tense sufferer. A whole winter passed
without once having on shoes, my
ankles and nearly from the knees to the
toes being covered with virulent sores. I
tried practitioners, specialists, dermatol-
ogists, etc., to no purpose. My daughter-
in-law reminded me of having prescribed
Cuticura for my grandson more than
twenty years ago. I at once procured
the Cuticura Remedies and found im-
mediate improvement and final cure,
till to-day, though well along in years,
I am as though I had never had that
disease. I am well known in the vicinity
of Louisville and Cincinnati, and all
this could be verified by witnesses.
M. W. LaRue, 845 Seventh St., Louis-
ville, Ky., April 23 and May 14, 1907."

The agonizing itching and burning
of the skin, as in eczema; the frightful
scaling, as in psoriasis; the loss of hair
and crusting of scalp, as in scalded
head; the facial disfigurement, as in acne
—all demand remedies of extraordinary
virtues to successfully cope with them.
That Cuticura Soap, Ointment, and Pills
are such stands proven by testimonials
of remarkable cures when many reme-
dies and even physicians have failed.
One set is often sufficient to cure.

of the White House is as much due
to Mrs. Van Allen as to myself. We
always consult and work together, and
her personal overlooking of the kitch-

eral, has made us the reputation we
have for neatness, cleanliness, and
the table we set.

We thank the people of Gainesville

provements will be able to serve them
better than ever before.

MINSTREL BENEFIT FOR THE BAND BOYS

High-Class Entertainment to Be Given
by Local Talent.

TO HAVE CHORUS OF 40 VOICES

Some of the Finest Talent in the City
Will Participate in This, Minstrel,
Which Will Excel Anything Ever
Introduced in Amateur Line Here.

Gainesville is to be treated in the
very near future to an old time min-
strel for the benefit of the Gaines-
ville Brass Band.

A business meeting will be called
within the next few days and the boys
will be assigned their respective parts,
when they will get down to practice
regularly.

J. F. Burnett, who is getting the ag-
gregation together, promises the
amusement-loving public something
rich for their money, and assures them
that it will be one of the best amateur
productions ever put on the local
stage.

The chorus will consist of some
forty voices, and all songs will have
an accompaniment with a full brass
orchestra; besides, the jokes will all
be of a local nature, which will give
the audience a first-class entertain-
ment.

There is no organization in the
city that needs encouragement more
than the band, and the getting up
of this benefit performance is com-
mendable on the young men of the
city.

The band is now practicing regular-
ly, and since its last appearance has
even made greater improvement than
most people had supposed. This
benefit for them will prove that the
people of the city appreciate their
efforts, for they will give them a full
house.

Lose a good-pay tenant, or boarder? Let a want ad. help you to take it like a philosopher.

A real estate advertisement sells one man's property before another man's "For Sale" placard has even commenced to gather dust.

Taft may not be able to conduct a front-porch campaign, as does Mr. Bryan, but he has a much larger "front" for his audience to gaze upon.

The Atlanta Constitution remarks that "if Caleb Powers takes the platform he may cut out Kentucky, for in that State he would be a tempting target on a platform elevation."

The Atlanta Constitution accuses Jacksonville of shipping "bottled smiles" into that State. Well, didn't an Atlanta man organize a "Smile Club" just after the passage of the prohibition law?

"Klasing-bug" Hobson, as he is dubbed by The Pensacola Journal, made an ass of himself in the Denver convention. It is strange that Alabama Democrats sent such a freak to Denver as a delegate.

A member of the Georgia Legislature has introduced a bill to change the time of the meeting of that body to the winter months. We don't blame him, for even in the winter season the Georgia Legislature would be "red-hot and still a-heating."

George Washington, the negro condemned to die July 31 in this city, contrives to call for chicken. If he can get all the chicken he can eat, he says he will be perfectly content to mount the gallows when his time comes.—Tampa Evening News.

Reports from St. Augustine are to the effect that the daily rains which continue to fall there give every prospect for an enormous sweet potato crop through that section of the State this summer. Ever since the crop was planted the weather has been ideal for this staple product and if good prices prevail the farmers will make excellent profits.

R. L. Harper has purchased The Central Union Times from the Central Trades and Labor Council of Jacksonville, and changed the name to The Independent. "Bob" Harper, as he is known in Gainesville, is one of the best printers in the country, a forceful writer, and a true friend of organized labor. The Sun wishes you success in your new venture, Bob.

The Pensacola Journal says "there was a side play enacted at Denver that was not on the bills. It seems that the W. R. Thomas Marble Company of Denver has suffered great losses by a strike and boycott, so while Samuel Gompers, John Mitchell, John B. Lennon, Frank Morrison and some others, all leading officers of the American Federation of Labor, were holding a conference on labor matters last Friday, the sheriff served them with papers to appear as defendants in a suit brought by the marble company for \$50,000 damages. The officers of the Colorado State Federation of Labor and the Denver Building Council are co-defendants and the trial has been set for August 4."

INDUSTRIAL TRAINING.

It is said on good authority that more than 90 per cent of the pupils who complete the elementary course of instruction in the schools of the country earn a living through some form of manual labor. On this account much attention has recently been given to the question of adjusting instruction in schools to the demand of manual effort upon the future worker. The standard of requirement is twofold. It is not enough to be able to earn a living. That might be all the community itself has a right to demand of the individual; but nations themselves compete so actively nowadays that the individual unit of productive power in the nation should at least measure up to that of its competitors. For that reason the standard of self-support must be supplemented by a standard of comparative industrial efficiency in the training of the worker.

Among all classes a more definite idea of what this requirement involves is being gained from year to year. The conception which organized labor has of effective industry is one thing, that of the professional educator is another. Both may have much in common. President Harvey, of the Stout Training School of Michigan, says the following things are essential in a well-trained workman:

"Habits of close observation; a high ideal as to what constitutes honesty in workmanship; habits of accuracy in work; comprehension of what is good in design as related to use in connection with the work in hand; knowledge of materials best adapted to different forms and types of construction; knowledge of construction processes in the treatment of materials; skill in the care of tools and in their use in industrial processes; knowledge of machine processes and skill in using machinery; skill in free-hand and mechanical drawing."

Probably the best in this rather elaborate outline is comprised in the four things—observation, honesty, accuracy and judgment. The schools do their work best when they concentrate their efforts upon mental and moral mastery of principles, with sufficient practice to illustrate and enforce instruction. The responsible efforts of constructive work come with definite contract in practical life, and the idea should never be lost sight of that instruction is a preliminary to rather than a substitute for the actual experience in the work by which one earns his living.

CONCERNING WOMEN.

The California State Federation of Women's Clubs has endorsed the effort to secure school suffrage for the women of that State.

Miss Minnie A. Tyler has just been re-elected town clerk of South Londonderry, Vermont. Miss Tyler has served twelve successive terms in this office, which was also held by her father and grandfather.

The city of Portland, Maine, now has three women on the school board, two women on the board of overseers, one woman policeman, who is also agent for the State Board of Protection for Children, a woman as assistant city clerk and a woman as city librarian.

Miss Jessie Ackerman has just made her sixth tour around the world. In speaking of Australia, where women have full suffrage, she says: "Since I was last in Australia women have the franchise. In the mining districts I found that the miners' wives took the keenest interest in political questions and were ready to talk politics intelligently, even at the wash-tub."

When a piece of machinery becomes useless to you, a "For Sale" ad. in The Sun becomes useful to you.

VICE-PRESIDENTIAL NOMINEE.

The Savannah News says "the Republicans nominated Congressman Sherman for Vice-President mainly because they thought he would strengthen their ticket in New York, and the Democrats, there are reasons for thinking, nominated John Worth Kern of Indiana for the same position with the expectation that he would help them carry that State. Mr. Kern is about 59 years of age and is a popular man in his State. He is an Indianapolis lawyer and has been in politics a good deal since he cast his first ballot. He has been supreme court reporter, city solicitor, State Senator and was defeated for Governor in 1900 and 1904. He also received the complimentary vote of his party for United States Senator in 1905. If any Democrat can carry Indiana he can. While he isn't widely known outside of his State he is very well and favorably known in every county in it."

"In the early part of the convention it was thought that the candidate for the second place would be taken from New York, with the hope of carrying that State. It is evident that it was finally concluded that there was a better chance of carrying Indiana. Mr. Bryan could have a running mate from any State he desired, and doubtless he favored Mr. Kern."

"It is evident that it is Mr. Bryan's purpose to make the Middle West his battle ground. He believes he can be elected without New York, and the selection of an Indiana man for the second place indicates that he feels certain of carrying enough of the Western States, together with the solid South, to give him the victory. He realizes that he hasn't much reason to expect success in the East, and hence there is no use to waste much time on that section. If Mr. Hearst is a candidate he will draw enough votes from him in New York to make it impossible for him to carry that State, and the sentiment in New Jersey and Connecticut, the only other doubtful Eastern States, isn't favorable to him. He has acted wisely therefore in deciding to put forth his full strength in the West."

Mercer's Large Summer School. Macon, Ga., July 15.—The work of the summer school at Mercer university has been pushed into another month, and, with a largely increased attendance. The work indicates that there will be a large number of young men prepared for the classes at the opening of the fall session, and President Jameson and Professor E. T. Holmes, who is in charge, have found much in the summer school to make them happy over the prospects for the fall opening. A well-organized movement to bring a large student body next fall is now under way.

Sheriff Prevented Lynching. Russellville, Ky., July 15.—Rufus Browder, the negro slayer of James Cunningham, who escaped lynching at the hands of a mob by the vigilance of Sheriff Rhea, was brought back to town Tuesday morning, accompanied by a company of militia. The sheriff had his prisoner secreted in the woods near town all night. Browder is in jail, but his hearing does not come up until September.

FLORIDA NEWS.

Mrs. Ralph Saxo, widow of the man who committed suicide in the apartment house in The Tribune building in Tampa last Sunday, died the day afterwards, the result of taking chloroform with suicidal intent.

A colored boy, Isaac Budge, was accidentally killed northwest of Starke by falling from a wagon. He was standing up in the wagon with another boy after a load of fodder and seeing a cloud coming up, threatening rain, they started the mules in a trot, when the boy fell out, the hind wheel passing over the body, injuring him so that death resulted the next day.

Starke has just held an election for the purpose of deciding as to whether additional bonds shall be issued to extend and improve the electric light plant and water works. When this plant was installed a few years ago it was thought that the plant was built more than adequate for the demand for many years to come, but now it does not meet the demand.

A singular accident caused the death of Mr. McDaniel, of Woodville, Sunday, 12th inst. Mr. McDaniel was visiting a Mr. Shirria, at the latter's home near the St. Mark's river, and on Sunday, accompanied by his host, went for a walk through the fields. As the two men passed under a decayed tree it fell and struck Mr. McDaniel on the back of the head and neck. His skull was fractured and his neck broken. There was no wind and no warning sound; the scarcely perceptible vibration of the men's footsteps as all that was needed to topple over the tree, so far had its decay progressed.

Dr. E. A. Bessey, superintendent of the United States Tropical Gardens and Laboratory at Miami, has an African Baobab tree in bloom at his residence. It is believed that this is the only tree of its kind blooming in the State. The tree in its native home is one of the largest trees known, often attaining a diameter of thirty to forty feet near the ground. Its height it rarely ever grows more than sixty to 100 feet. The blossoms form on a stalk about a foot in length, and are about six inches across. The flower is a creamy white and opens at night, remaining open during the day, when the petals fall to the ground.

The residents of Anastasia Island and South Beach, suburbs of St. Augustine, have recently witnessed novel sights of nature's phenomena. Several days ago a waterspout approached the island and broke when it most upon the cottage settlement at the lighthouse station. Tuesday afternoon an almost blinding flash of lightning came from a cloudless sky at South Beach, accompanied instantaneously by a deafening clap of thunder, which threw the little community into consternation for a moment. The lightning struck the trolley car standing at the South Beach station and burned out the fuse, putting the car out of commission temporarily. The damage was soon repaired, however, and the schedule resumed.

ACT QUICKLY

Delay Has Been Dangerous in Gainesville.

Do the right thing at the right time. Act quickly in times of danger. Backache is kidney danger. Doan's Kidney Pills act quickly. Cure all distressing, dangerous kidney ills.

Plenty of evidence to prove this. Mrs. A. H. Leonard, living at 304 E. Liberty street, Gainesville, Fla., says: "I feel that from personal experience and from the experience of several of my friends who have used Doan's Kidney Pills, I can endorse them very highly. Any person suffering from backache, headaches, chills, nervousness or any of the other symptoms arising from disordered kidneys will make no mistake in procuring Doan's Kidney Pills at J. S. Bodford & Co's. and give them a trial. They always act quickly, cause no inconvenience, and do all that is claimed for them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Hot Springs, Ark., where he will spend a month recuperating.

Mrs. Hamilton and little son, accompanied by Miss Hamilton, all from Georgia, are here, guests of Mrs. C. D. May.

Miss Ella Smith is spending the week at Coleman, the guest of her aunt, Mrs. Will Smith.

Miss Edna Johns of White Springs is spending a few weeks here, the guest of Mrs. Densler and Mrs. Kennard.

Miss Ola Ruff, one of Ft. White's charming young ladies, is here, the guest of her brother, Dr. J. F. Ruff.

Mrs. J. N. Partin and daughters, Rena and Johnie Lee, returned Saturday from Live Oak, where they spent a week visiting relatives and friends.

Miss Ruth Peacock is spending a few weeks at Mayo, visiting relatives.

Cecil, the interesting little son of Mr. and Mrs. A. C. Robinson, entertained his numerous friends at a birthday party Monday afternoon. Those present were Bessie Roland, Margaret McLeod, Leo Densler, Jewel Smith, Ivey Swindal, Peyton Fortson, Jr., Frank and Nelson White, Thomas Roland, Rouse and Karl May, John Arthur Reid and Spencer Ruff. It is useless to add they spent a very pleasant afternoon and wished Master Cecil many happy returns of the day.

Horseback riding among the ladies is getting to be "all the go" here. Almost every afternoon you may see a crowd leave for the ever popular place, the "peach farm."

G. B. Burhans Testifies After Four Years.

G. B. Burhans of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick-dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to anyone suffering from kidney or bladder trouble." Say Spot is Haunted.

Buckhead, Ga., July 16.—There is a spot on the Georgia road between Buckhead and Carey where no less than ten wrecks have occurred in the past two months, and while none have resulted seriously, each time traffic was delayed at least eight hours. There is no known cause for these accidents and the trainmen have become superstitious about it. Many aver that it is haunted and tales of ghosts are rife.

Starved to Death

Is what could truthfully be said of many children who die. They have worms, poor little things—they don't know it and you don't realize it. If your child is cross, fretful, pasty complexioned and loses weight for no apparent reason, give it White's Cream Vermifuge—you will be surprised at the results and how quickly it picks up. GEORGIA LEGISLATURE.

Both House and Senate Confronted by Important Legislation.

Atlanta, July 15.—Whether the disfranchisement amendment to the constitution, if ratified in October, as its supporters believe it will be, may be suspended going in operation until January 1, 1909, is the question which is now absorbing the attention of those who had the measure put up to the people last year.

At a meeting of the general judiciary committee of the house it was stated that in the event the amendment is adopted, as it now stands, it will go into effect at once, and no one, except those who qualify under its provisions, before the registrars of the state, can vote in the November elections.

By a vote of 113 to 24, the house of representatives Monday morning went on record as being opposed to the service pension measures as offered by Mr. Foster, of Cobb. It required 122 to pass the constitutional amendment.

Under the terms of this measure, the constitution of Georgia is to be amended so as to allow for the payment of pensions to all confederate veterans and their widows, provided they married prior to 1870, and are in possession of less than \$1,000 in realty and personal property.

An effort was made to have the wealth qualification placed at \$1,500, and to allow all veterans enlisting from Georgia but serving elsewhere to come under this measure, but both were defeated.

One of the most important measures introduced at the session of the senate on Monday was that by Senator Felder to so amend the act to create a prison commission for the state of Georgia so as to provide for the disposition of certain felony convicts after the first of April, 1909. The bill provides that these convicts shall be placed on the prison farm instead of being leased out.

The senate passed the resolution by Mr. Candler of DeKalb, which carries out the governor's suggestion giving the university of Georgia the privilege of sharing in the Carnegie foundation fund.

The bill by Senator Farmer to authorize the superior courts of this state to grant charters in vacation to such corporations as they are authorized by law to create, was favorably recommended by the general judiciary committee.

After an executive session lasting several minutes, the general agricultural committee of the house reported favorably the measure by Mr. Trent, of Heard, which proposes that all dogs not muzzled in Georgia shall be slain. This puts the question up to the general assembly now, and there is a great sentiment in favor of its passage. Mr. Trent, the author of the measure, appeared before the committee and spoke in favor of the measure.

GEORGIA LEGISLATURE.

Investigation Into Conduct of Prison Commission Ordered.

Atlanta, July 16.—"An examination and investigation into the conduct and management of the prison commission, its officers and employees and all convict lessees" was declared for by the house Tuesday following a spirited debate and an aye and no vote, by 141 to 15.

Some Measures Introduced.

Following the action on the resolution calling an investigation of the prison commission, officers, employees and lessees, with superior court powers, the house turned to the introduction of new measures.

Mr. Hall, of Bibb, introduced his measure to change the time of holding the legislature from the fourth Wednesday in June to the second Wednesday in January, 1909.

A bill to abolish the leasing of convicts to private parties was introduced by Messrs. Alexander of DeKalb, Barwell of Hancock, Candler of DeKalb, Covington of Colquitt, and Wright of Floyd.

It provides a constitutional amendment which will forever abolish this system and calls for the issuance of \$750,000 in state bonds, the purchase of farm lands, materials, tools, live stock and the like, for use therein where convicts may be worked.

This is to come up before the constitutional amendment committee later.

The senate held a lengthy and interesting session Tuesday morning during which time a resolution by Senator Felder calling for a thorough investigation of the charges made by the committee appointed to examine into the condition of the convict system in the state by a joint committee of three from the senate and five from the house, was adopted unanimously.

The bill carrying an appropriation of \$15,000 to the normal school at Athens was passed. The report of the committee reporting unfavorably the bill requiring all engines in the

BRIGHTER BUSINESS OUTLOOK.

Mr. Speyer is Optimistic Over the Signs of the Times Generally. New York, July 16.—James Speyer, who sails on the Adriatic on his annual European trip, has this to say about the business outlook:

"Everybody knows that the financial and business situations have improved during the last few months and I believe that it will continue to improve as confidence (which has been severely shaken through a number of causes) continues to be restored more and more.

"Judging from the past the election of Mr. Taft seems a reasonable certainty. The political situation therefore ought not to be too much of a disturbing factor, the more so as the ill-considered attacks on capital generally do not find the same favor with the people as they did a little while ago. The crop prospects also are fair and the easier money and credit situation should have a favorable influence on the revival of business generally.

"Some important matters, especially in relation to the railroads, remain to be adjusted, but I look forward to a gradual and steady return to normal business activities, and barring unforeseen events, I expect to find when I come home two or three months hence, that there will be less idle cars and less unemployed in Wall street and elsewhere in the country."

Mr. and Mrs. Speyer expect to return to New York in October.

MURDER OR SUICIDE?

Mysterious Death at LaCrosse, Wis., Sets Police Probing.

Chicago, July 16.—A dispatch to the Record Herald from LaCrosse, Wisconsin, says:

With a bullet in his heart, Albert Platz, a rich tanner, was found dead in his chair at his office Tuesday night. A revolver was on the floor beside him, a stained swab was clenched in one hand, while the other pressed a piece of rag into the wound as though to stop the blood.

This circumstance gave the case the appearance of an accident, but there are other incidents which have led the police to a thorough investigation of murder or suicide theories, there being no powder marks.

Platz was president of a Mexican plantation company, in which the original investors, including himself, sustained heavy financial losses. He was seventy years of age.

TAFT STUDIES PLATFORMS.

Too Absorbed in Them to Devote Time to Acceptance Letter.

Hot Springs, Va., July 15.—From the present indications, William H. Taft's letter of acceptance will be a judicial scolding of the democratic platform adopted at Denver.

All day Monday and late into the evening, Mr. Taft's time was devoted to a study of the platforms of the two parties. When he has concluded his labor he will not only be an authority on the work of the recent conventions but on party platforms of the past. Mr. Taft became so thoroughly interested in his study of the records that he did not find time to dictate a line of his speech of acceptance.

After his usual morning game of golf he again delved into the records. He is securing the complete seclusion he desired, as there is not a single party leader here to interrupt his work by requests for a conference.

RUSH OF ATLANTIC TRAVEL.

Three Big Liners Leave New York With Full Cabins.

New York, July 16.—The rush of Atlantic travel eastward still continues to be almost up to the average of former years. Steamship agents assert that the season was later than usual this year, but that it has made amends for the falling off in the earlier sailings and promises to continue later than usual.

The three liners leaving Wednesday with full cabins for Europe are the last to sail on the high summer schedule as the winter rates eastward go into effect Thursday.

The minimum fare is the same all the year around, but the rates for the best cabins are practically cut in half. For instance, a deck cabin on the Lusitania, sailing Wednesday that costs \$600 for one passenger, will only be \$300 on the Mauretania, sailing on July 22.

TARDY WORK PROVED FATAL.

Prompt Action Might Have Saved Supposed Drowned Man.

New York, July 14.—Lashed to a pier in front of Mrs. Frank Gould's residence at Greenwich, Conn., Dominick Bond, a superintendent of construction on a sea wall being built there, was left to die by his workmen who believed him drowned.

Bond had been in swimming and was taken with cramps. He sank twice and when he came up unconscious, some of the men, believing him dead, passed a rope around him and tied him to a nearby pile while they hastened for assistance. Bond was dead when assistance came.

It is believed that he could have been resuscitated if proper measures had been promptly taken.

Lusk May Be Given Place.

Montgomery, Ala., July 15.—Rumor is that Senator John A. Lusk, of Marshall, has been wired to come to the capitol and that he will be offered the place of associate railroad commissioner made vacant by the death of Major John G. Harris. Senator Lusk was the leader of the administration in the upper house and had part in the passage of the railroad control laws that are now held up by the courts. He is the author of the act to prevent foreign corporations from removing suits from state to federal courts.

Is Betting Law Violated?

New York, July 15.—It is authoritatively stated in Brooklyn that a special corps of detectives working under orders from Governor Hughes has been in Brooklyn for several days, investigating the conditions at the race tracks as to betting. These detectives are reporting directly to the governor, and it is said their reports are to the effect that the law is being violated. There is a belief in Brooklyn that when they have completed their work the governor will give the authorities here who are responsible for the enforcement of the law, a severe shaking up.

JAPAN DESIRES PEACE.

Has No Aggressive Intentions Toward United States.

London, July 16.—The Rt. Rev. William Awdry, Anglican bishop of South Tokyo, in a long letter to the Times, repudiates the idea that the Japanese have any aggressive intentions towards the United States or elsewhere. He says that he should not have given this question a moment's thought, but that the governor of the Bank of England, whom he personally met was seriously anxious and full of questions on the subject.

Bishop Awdry declares his conviction that the Japanese sincerely hope that the United States will keep a tight hold on the Philippines for many years to come. The financial situation, he says, does not tend to lead Japan to desire fresh burdens and responsibilities.

Invitation to Roosevelt.

Nashville, Tenn., July 16.—At the regular meeting of the executive committee on foreign missions of the Southern Presbyterian church in this city Tuesday Rev. Motte Martin, a missionary from the Congo Free State, was commissioned to invite President Roosevelt to visit the mission during his trip to Africa, and also to extend to the president the courtesy of the boat Samuel N. SPONGE DIVERS.

Hardly a Single Caphander of Tripoli Escapes Paralysis.

There are a great many varieties of sponges, most of which are found in the warmer parts of the ocean. The bath sponges are chiefly obtained from the eastern half of the Mediterranean, where they occur at all depths down to 100 fathoms and are obtained by diving, dredging or harpooning.

Writing in Harper's Magazine, C. F. Furlong gives an account of the work of the Greek sponge divers off the coast of Tripoli, in north Africa. Attacks by sharks and dogfish have gradually frightened away the common divers, who dive naked with a piece of marble and a line, and the field is left clear for the "caphanders," as the men are called who use air pump, suit and helmet.

The greatest enemy of the caphander is paralysis, hardly a single diver escaping from it in some form or other. The great cause of this disease is the sudden relief of pressure due to the rapid ascent, the dangerous symptoms appearing when the diver emerges into the fresh air.

Strange as it may seem, a partially paralyzed diver on descending into the water recovers the use of his limbs again, and his circulation becomes normal. To battle with this scourge the Greek government has issued regulations as to the depths to which a diver shall go and has also provided a hospital ship and a sponge divers' hospital on shore.

FREAKS OF RAZORS.

The Way the Grain of the Blades is Sometimes Reversed.

The finest grades of razors are so delicate that even the famous Damascus sword blades cannot equal them in texture. It is not generally known that the grain of a Swedish razor is so sensitive that its general direction is changed after a short service. When you buy a fine razor the grains run from the upper end of the outer point to a diagonal direction toward the handle. Constant stropping will twist the steel until the grain appears to be straight up and down. Subsequent use will drag the grain outward from the edge, so that after steady use for several months the fiber of the steel occupies a position exactly the reverse of that which it did on the day of purchase. The process also affects the temper of the blade, and when the grain sets from the lower outer points toward the back you have a razor which cannot be kept in condition even by the most conscientious barber. But there's another curious freak that will take place in the same tool: If you have the razor alone for a month or two and take it up, you will find that the grain has assumed its first position. The operation can be repeated until the steel is worn through to the back.—Grand Magazine.

Old Scottish Sanctuary.

The old sanctuary of the Abbey and Palace of Holyrood House, to quote the full description, was an interesting institution. The debtor was free from arrest during the week. On entering the sanctuary he enrolled himself in a formal manner and obtained a room—namely, if he could pay for it. There was a public house within the boundaries, and it was not uncommon to find the debtor in the inn playing dominoes and his creditor standing looking at the window with wistful eyes. The debtor was safe, and he knew it, and the face of the creditor told the same tale. Sunday being a dies non, the debtor could leave his sanctuary and visit his family, but he had to be careful to get back to Holyrood on Sunday night. Sometimes a debtor had the generosity to leave on a week day, but he did so at his peril.—London Globe.

The English of It.

A lady, accompanied by her small son, was making various purchases at the army and navy stores in London. The boy grew tired.

"Who are you buying those for?" he asked.

"Why, for father," was the reply.

"Father in heaven or father in law?" the boy persisted.

The lady mentioned the remark to a friend, who, thinking it amusing, repeated it to an Englishwoman at a church a few days later. The Englishman listened sympathetically. "Poor woman!" she sighed. "She was married twice."—Everybody's Magazine.

A Different Proposition.

HEATHERBLOOM

Is made with tucked umbrella flounce and finished with narrow ruffle, shirred and hemstitched. In lengths, 38, 40, 42. Ask for No. 64 K 17 F. F. You know that this Heatherbloom material alone would cost you more than the price we ask for the Heatherbloom petticoat all made and with the Heatherbloom label on the waist band of each petticoat. This is another unquestionable proof of the remarkable saving you enjoy when you send your order to MACY'S.

Send Post Office Money Order, Express Money Order or Registered Letter. You know just what the Heatherbloom petticoat is, but if for any reason you are not satisfied after you receive it, just ask us, and we will immediately return your money in full.

A WARM RECEPTION.

It Gave the Hungry Preacher an Appetite For Dinner.

Before accepting an invitation it is as well to be sure it is given in good faith. After an afternoon service held many years ago in a certain village in Scotland the preacher, a stranger, who had officiated, accompanied one of the elders of the congregation home and was introduced to his wife. The good man having asked the clergyman to stay to dinner, the latter, after a little pressing, consented.

The good lady hurried off to prepare for the unexpected guest, and, seeing, as she thought, her husband washing, as was the custom in those days, at the family sink, she seized the family Bible, approached stealthily from behind and brought down the ponderous tome upon his bald pate, exclaiming:

"Tak' ye that for bringing hungry preachers here to dinner every time they come to the parish."

As soon as the assaulted one could get the sides out of his eyes he looked about him and, after thinking the matter out, concluded that the old lady had made a slight mistake. She, too, came to the same conclusion when, on returning to the parlor, she beheld her husband patiently waiting for his reverend friend!—Dundee Advertiser.

War Against Consumption.

All nations are endeavoring to check the ravages of consumption, the "white plague" that claims so many victims each year. Foley's Honey and Tar cures coughs and colds perfectly and you are in no danger of consumption. Do not risk your health by taking some unknown preparation when Foley's Honey and Tar is safe and certain in results. The genuine is in a yellow package. J. W. McCollum & Co.

ADVERTISE
IN
THE SUN
There's a Reason.

DO YOU WANT TO

MAKE OR LOSE MONEY

THIS SUMMER?

THERE is no good reason for any "summer dullness" in the stores of this city. That's a strong statement—but its not nearly so strong as the one to follow.

No store in this city ever suffered from summer dullness that was not directly traceable to its advertising policy—that was not INEVITABLE on account of its advertising policy. This is a strong statement—but not so strong as the one to follow.

You—if you who read this are a merchant in this city—HAVE THE ABSOLUTE POWER TO DECIDE WHETHER, during THIS summer, YOUR STORE SHALL LAG AND LOSE GROUND, through ENCOURAGING THE NON-BUYING HABIT IN THE PEOPLE—or shall keep as busy as in the so-called "busy seasons." You decide the matter one way or the other when you decide on how much or how little you will advertise during these summer months.

To really "gain ground" at a time when some stores are lagging and falling back is not only possible—it is an aspiration—worthy of a man who has the habit of accomplishing his purpose.
